COMPUTATION OF DUES FOR FIBER, YARN AND FABRIC/HOME FURNISHINGS COUNCILS

MINIMUM DUES -- \$5,000 • MAXIMUM DUES -- \$180,000

Instructions: Use sales figures from your most recent calendar year or your most recently completed fiscal year. Dues are to be calculated on all net sales of textile product manufactured in the U.S. assessed at the rate of **0.00025**. This is to include all internal company transfers of U.S. manufactured textile product to facilities domestic and offshore (*see dues instruction sheet on following page for more information on calculating sales*).

In addition, all member companies are subject to \$5,000 minimum dues for calculations falling below that amount and maximum dues of \$180,000 for calculations exceeding that amount.

- 1) Total Textile Sales _____
- 2) Multiply Sales by 0.00025 _____
- 3) **NCTO ANNUAL DUES** (\$5,000 min / \$180,000 max) \$

INDUSTRY SUPPORT COUNCIL DUES

Dues for full voting membership in the Industry Support Council of NCTO are **\$5,000 per year**. Qualifying members—*defined as for-profit organizations that provide products or services to U.S. fiber, yarn and fabric manufacturers*—include textile machinery manufacturers, textile distributors, dye and chemical suppliers, service providers, and other organizations that share a common interest in advancing the welfare of the U.S. fiber, yarn and fabric manufacturers. Companies who qualify for Industry Support Council are not eligible for associate member status.

ASSOCIATE MEMBERSHIP DUES

Non-voting Associate Member dues are **\$5,000 per year**. Companies and organizations qualifying for Associate Membership in NCTO—*defined as organizations that are not eligible for membership in the Fiber, Yarn and Fabric & Home Product Councils of NCTO but who have an interest in advancing the economic welfare of the U.S. fiber, yarn and fabric manufacturing industries*—include non-profit organizations, such as trade associations and councils, financial institutions, accounting firms, consulting firms, natural fiber suppliers, and suppliers of industrial and carpet denier manmade fibers (also suppliers of textile deniers if annual production is less than 10 million pounds).

NATIONAL COUNCIL OF TEXTILE ORGANIZATIONS

– Dues Instructions for Calculating Textile Sales –

- 1) Use sales figures from your most recent calendar year or your most recently completed fiscal year. Dues are to be calculated on all net sales of textile product manufactured in the U.S. assessed at the rate of **0.00025**.
- 2) Include both domestic and export sales from all plants and divisions of your company and from all subsidiaries in which the company owns more than 50%. If the reporting company is itself a subsidiary, include in your sales figures the textile sales of the parent corporation.
- 3) Include in the net textile sales the estimated sales value of textile products transferred within the company to non-textile divisions, such as apparel manufacturing divisions. This is to include all internal company transfers of U.S. manufactured textile product to facilities domestic and offshore. The estimated sales value of such transferred products should be based on an approximation of the value of a sale made to a customer outside the company in an arms-length transaction reflecting market prices.
- 4) The entry for textile sales should include, but not necessarily limited to, the following:
 - Fiber sales and transfers of all kinds
 - Yarn sales and transfers of all kinds and all fibers
 - Fabric sales and transfers of all kinds, including woven, knitted, non-woven, tufted, braided or other
 - Processing income from others, including commissions for bleaching, dyeing, printing, finishing, cutting & sewing (exclusive of garments), throwing, mercerizing, yarn processing, resin treatment, coating, laminating, etc.
 - Carpet and rug sales and transfers of all kinds
