We encounter a variety of needs by our clients. Utilizing marine grade fabrics (Sunbrella) as well as Vinyl Fabrics. The most pertinent thing that I think we would make that could be of use would be somewhat temporary/permanent shelters. Think fabric covered outdoor eating areas at restaurants, or other large eating establishments. Which would include a fabric roof, and walls if needed. Completely custom, with some size restrictions, not ideal for relocation once installed, but possible. Everything we do is designed to be for the most part modular and somewhat easily installed by 2-4 people. While our customers primary purpose is for permanent or long time use. Our structures are built out of aluminum tubing and can be as temporary as needed to be.
