We have a sewing/manufacturing facility in which we plan to be producing masks. I would appreciate being included on any communications on the development of the supply chain for appropriate materials and resources available domestically.<br>I look forward to hearing from you.  |
| Wilson Sporting Goods             | Tennessee  | USA     | Curtis C. Brown    |       | Curtis.Brown@amersports.com | 1931-738-7500 x 7274 | A quick introduction, I am the plant manager at Wilson Sporting Goods in Sparta, TN. Sparta is a neighboring town to Cookeville TN, midway between Nashville and Knoxville. We have a sew line in Sparta with 15 sewers and wanted to see if there is a possibility we can help provide masks. I am sure there are specific fabrics and patterns to fit what is truly needed. Please let us know if we can help fill a need locally, regionally, nationally.                    |
| Valkyrie Company/Abas Accessories |            |         | Robert Devaney     |       | robertjdevaney@gmail.com    | 617-733-9935         | As we are all thinking about today, my father would like to contribute in any way possible to helping the Covid-19 situation. With access to the right patterns and material components, Valkyrie can produce thousands of Surgical Mask units on a daily basis. Do you have a source you can point us to for the procurement of the appropriate materials for surgical masks?  |
| GraphicRagz                       | Georgia    | USA     | Bill Ragsdale, Jr. |       | sales@graphicragz.com       | 404-299-7563         | We have been a custom sewing manufacturer for 15 years located near Stone Mountain Georgia. Our largest programs in the past were 10,000 units of 7 different SKU per week for 2 ½ years for Bruder Health Care. For the past several years we have been sewing post operative compression garments for The Marena Group and custom printed athletic wear. This unprecedented medical emergency has caused us to have an abundance of open capacity.                            |
| National Institute for the Blind  |            |         | Kurt Borgoyne      |       | kborgoyne@nib.org           | 703-203-6033         | Good morning. My name is Kurt Borgoyne. I am an engineer for National Industries for the Blind (NIB). If you are not familiar with NIB, NIB represents about 90 individual agencies across the country that provide products and services to the US government. These products include textiles such as uniforms, etc. for the US military. Many of these agencies are interested in assisting with the production of medical supplies in light of the current virus situation. |
| Tempur Sealy International, Inc.  |            |         | Gary Ford          |       | gary.ford@tempursealy.com   | 269-921-0294         | I've seen the releases regarding the coalition formed by Hanesbrand, Fruit of the Loom, and others to build face masks. Tempur-Sealy is looking for ways to help support relief efforts associated with the COVID-19 outbreak. Our bedding factories have sewing capabilities. Is there an opportunity to assist in this effort?  |

**CUT & SEW  
SERVICE PROVIDER**

| Company                       | Location            | Country | Name             | Title | Email                               | Phone          | Comments   |

| Jostens                       | South Carolina      | USA     | Duke Walker      |       | Samuel.Walker@jostens.com           | 251-402-5370   | We have production facilities both domestically and off-shore (Mexico and Dominican Republic). Our cut & sew facilities are in Laurens, SC and the 2 off-shore plants I just mentioned. Our facility in the Dominican Republic has been in discussions with Hanes for over a week to partner on finish manufacturing and shipping of a product they've been producing to help meet demand for medical PPE. We are working to scope our production capabilities and identify the most appropriate product. But we are seeking to either identify/match with a partner/customer, similar to the Haynes project. Is that something you could help me with? Any facilitated introductions are welcome.   |
| Advanced Metal Fab., Inc.     | (mentioned Navarro) |         | Dan Chustak      |       | dan@amf-in.com                      | 574-259-1263   | I am also working with small sewing groups that are supplying hospital staff with homemade masks. Maybe, with direction, they could be spending time on a better product with better materials as I read that participating manufacturers have the first face masks have been approved by the U.S. Department of Health and Human Services. Perhaps the design should be posted here with a material list.... folks are making masks anyway.   |
| ShowDown Displays             |                     |         | Jim Siesennop    |       | jsiesennop@signzoneinc.com          | 651-331-8481   | My company has large cut & sew capacity and several locations. We would like to help out as we have capacity.  |
| RobeWorks                     | California          | USA     | Vinent Rojas     |       | vincerojas@gmail.com                | 818-429-2109   | I would like to talk to you in converting our manufacturing factory in Los Angeles to manufacture medical gowns.   |
| Cross Link, Inc.              |                     |         | Rick Horrigan    |       | rickhorrigan@outlook.com            | 1-828-657-4477 | Preferred Finishing is able to manufacture coated and laminated barrier fabrics and fabric laminations. We also have industry contacts available to cut & sew fabrics into protective garments or medical drapes. We need a supply channel to get the protective garments and medical drapes to the end users. We can process up to 50,000 Linear yards of fabric per day depending on the coating or lamination required. We currently have very large inventories of bleached and scoured cotton fabrics, non-woven fabrics, and films. We have access to a larger supply of these substrates. We also have the ability to digitally print wide width fabrics. CrossLink is a chemical and polymer blending company. We have industrial size chemical mixing, blending and packaging capabilities. We can blend and package drum quantities up to tank truck size quantities of chemicals needed including coatings, sanitizers and disinfectants. We have suppliers able to provide a wide range of chemical raw materials. |
| Nike (Apparel Innovation)     |                     |         | Jolynn Mitchell  |       | Jolynn.Mitchell@nike.com            |                | I reached out to a contact at Hanes and they recommended we contact you regarding the consortium you are steering through the National Council of Textile Organizations regarding the making of masks. Would you be a good point of contact for us at Nike to discuss the potential needs and how we might assist in the effort?   |
| Lleboc Industries Inc.        | Texas               | USA     | Bryan W. Corbell |       | bwcorbell@lleboc.com                | 817-925-3748   | We are a Fort Worth, Texas based manufacturing company currently making products for the marine industry, we are in a 82k sq. ft factory, 4 cnc cutting machines 1.8m x 7cm cutting capacity, 30 seamstresses, along with assembly, packaging, and shipping capabilities. We have vendor relationships with Hanes Corporation that can provide the raw material for Mask and gown production. We are interested and available to pursue converting a portion of our factory over to manufacturing these products, we are also a GSA contract holder as well.   |
| The Fox Company               | North Carolina      | USA     | Nicky Keylin     |       | nberzack@thefoxcompany.com          | 704-399-4581   | According to a press release that I have just read, American textile companies are joining forces to manufacture medical masks. John E. Fox, dba The Fox Company (founded in 1930) is based in Charlotte, NC and we offer complete service to the sewn products industry. We sell sewing, spreading, cutting and finishing machines as well as parts and supplies for the Cutting and Sewing Rooms. As primary distributors, we offer both Genuine and Generic parts for all the major brands including, but not limited to Brother, Clinton, Durkopp-Adler, Eastman, Groz Beckert needles, Juki, Kansai, Mellow, Organ needles, Pegasus, Pfaff, Schmetz needles and Union Special.  |
